They've actually upped it to an inexplicable \$1.3M figure...

UGH.
After all that effort the Oregonian is still leading with 'the state will lose \$1.2M in penalties.'

All,

Here's the story from the AP reporter, but it's so short, I don't know if there's a longer version that might get published somewhere else.

<http://www.khq.com/story/27985991/regulators-oregon-logging-rules-dont-protect-clean-water>

And here's one from the Oregonian, with a huge factual error in the last paragraph, and arguably smaller errors throughout:

http://www.oregonlive.com/environment/index.ssf/2015/01/feds_reject_oregons_coastal_po.html

"To date - 19 years past the deadline - 10 states' plans have received approval."

Actually, 22 states & territories have received full approval.
